

OILFIELD EQUIPMENT CATALOG

OILFIELD BEARING INTERNATIONAL
HOUSTON • ABERDEEN • DUBAI • ODESSA • NISKU, CANADA

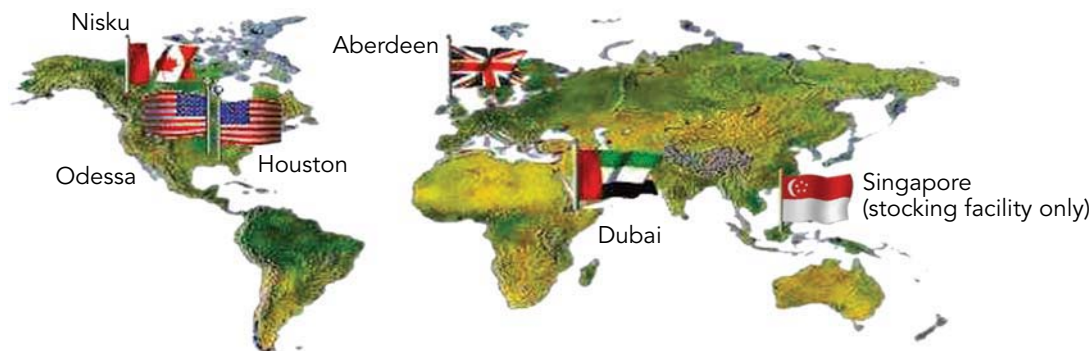

Quality products for the highly competitive oilfield industry

OBI is a distributor of bearings and oilfield consumables with multiple locations around the world. Our fully-stocked warehouses in Houston, Odessa, Nisku, Aberdeen and Dubai stock a complete range of products. OBI delivers products of the same high quality you expect from original equipment manufacturers (OEMs).

OBI has developed an extensive cross-reference and interchange database which—coupled with our library of catalogues for products and equipment—ensures that we can provide you quality replacement parts at very competitive prices.

The only oilfield bearing supplier with multiple locations world-wide

OBI stocks products *exclusively* for the oilfield industry. As a result of this specialization, we are able to carry high inventory levels of the parts you require, ensuring quick availability of products that would ordinarily require extended wait time.

Our bulk purchasing policy guarantees availability and ensures a competitive price for you.

As a distributor for the world's largest manufacturers, we supply only the highest-quality products.

24/7 WORLDWIDE LIVE SUPPORT

HIGHLY TRAINED STAFF

The staff at OBI are knowledgeable and trained to assist you in procuring equipment used in the oilfield. Our staff can assist you in finding parts that the common distributor may not be able to source.

QUALITY PRODUCTS FROM TOP MANUFACTURERS

OBI provides the same quality products you expect from the original equipment manufacturer. OBI stocks components for these equipment manufacturers:

- National
- IDECO
- Oilwell
- Gardner Denver
- Continental EMSCO
- and many others

OUR EXPERTS MAKE YOUR JOB EASIER

OBI has developed extensive interchange data, as well as catalogs for individual pieces of equipment. We can supply the equipment you need if you provide any of the following information:

- Component part number
- OEM part number
- Equipment the part is used on

OBI COMMITMENT TO QUALITY

OBI is committed to total quality. We are ISO 9002 certified. More importantly, we are dedicated to providing our customers—our most valuable asset—the finest quality products and services in the oilfield industry, today and in the future.

P.R.E.S.S.TM

PONY ROD ENHANCED SEALING SYSTEM

■ SUPERIOR SEAL ■ EASY INSTALLATION

- Four sealing surfaces – plus an excluder wiper – provide a superior, dependable seal.
- Non-reversible shoulders on sealing cups help ensure mistake-proof installation.
- Outer O-ring provides misalignment allowance for concentricity – creating an even more effective seal.
- Zinc phosphate coating prevents rust, maximizing tool life and enhancing reliability.
- Two jacking holes make removing the seal gland from pump housing effortless.
- Mounting bolts do double duty – designed for use during jacking removal procedures.
- Alignment dowel bolt included in the P.R.E.S.S. kit simplifies installation.
- P.R.E.S.S. fits Gardner Denver® mud pump models PZ-9, PZ-10, and PZ-11.

PATENTED, PROPRIETARY POLYMER

- ***Abrasion resistant***
- ***Dimensionally stable to 275 degrees F (135 C)***
- ***Superior memory and elasticity***
